Before the Lilly Oncology Support Center™ can start helping you, Lilly may ask for some information about you and your health from your Health Care Entities (as defined below). This is known as your *Protected Health Information*, or *PHI*. By signing this form, you understand and agree that your PHI may be shared with or used by Lilly as explained below.

**PHI includes information like:**

- Your health insurance or benefits, including how much coverage you have
- All records about your treatment
- Whether you're staying on your medicine or treatment

**If you agree, your PHI may be shared by these entities (together "Health Care Entities"):**

- Your doctors and other healthcare providers
- Your healthcare plan or health insurance company
- Clearinghouses or other agents
- Your pharmacy
- Others who might have your PHI on behalf of your healthcare providers, pharmacies and healthcare plans

**Your PHI is used in ways like these:**

- To learn how much of your Lilly treatment is covered by your insurance
- To help you find other ways to afford your treatment
- To track your use of your Lilly treatment
- To share information with your healthcare provider
- To make sure that you receive high-quality services from the program
- To measure program performance and make program improvements
- Internal Lilly use of data to drive business decisions and metrics on hub performance
- Reports to our sales force regarding HCP use of hub services
- Conversations/messages to your HCP regarding trends and hub performance

**Other things you should know about sharing and using your PHI:**

- We only ask for and share the PHI that we need to provide the benefits you want. We do not ask for any PHI that we do not need, but we may receive some in the health records sent to us. Your PHI will be released to Eli Lilly and Company and Lilly USA, LLC and its affiliates, agents, representatives, and service providers (together "Lilly")
- You don't have to give permission to share your PHI with Lilly to receive treatment from your healthcare providers, your prescription from your pharmacy, or benefits from your healthcare plan, but the Lilly Oncology Support Center™ may not be able to help you without it
- After your PHI has been shared, it may no longer be covered by federal and state privacy laws (such as HIPAA), and it may be shared again with others by Lilly
- Your signed permission to share and use your PHI lasts for 3 years from the date of your signature unless you are a resident of Maryland, Maine, or Montana, in which case the permission will last for 1 year from the date of your signature. In either case, you may revoke your permission before then by writing to PO Box 12307, La Jolla, CA 92039, which will preclude reliance on the authorization after the date your written revocation is received
- Your healthcare providers (such as pharmacies) may be paid by us in exchange for sharing your PHI. They may also be paid by us to use your PHI to provide services, such as contacting you about Lilly products
- **You can stop sharing your PHI with us or change what you share by calling us at 1-866-472-8663 or by writing us at PO Box 12307, La Jolla, CA 92039**
- **Your cancellation or revocation of this Authorization will be effective when your Health Care Entities receive notice of your cancellation or revocation, and will not apply to any information shared with Lilly by your Health Care Entities prior to the time those Health Care Entities receive notice**

## California Privacy Disclosures

California residents who have an established business relationship with Lilly may have the right to request information regarding Lilly's disclosure of certain PI to Third Parties for their direct marketing purposes. To make a request for such information, you may contact us using the information in this document.

### *Sale and Sharing of Personal Information*

Lilly does not sell PI about California consumers that are protected under the California Consumer Privacy Act of 2018 ("CCPA") or California Privacy Rights Act ("CPRA") to third parties or share such PI with third parties for targeted or cross-context behavioral advertising, as those terms are defined by applicable law. When Lilly permits third parties to collect PI through our websites or discloses PI to third parties, Lilly is doing so pursuant to various exceptions to the opt-out rights provided for under California law. For example, Lilly permits third parties acting on its behalf to process PI for the business purposes described in this Notice including advertising and marketing services (excluding cross-context behavioral advertising). In addition, Lilly may permit third-party advertising solutions to process PI when you direct us to do so by agreeing to the use of such technologies to personalize Lilly's content and ads. Consistent with the above, Lilly does not sell or share for cross-context behavioral advertising PI relating to consumers who it knows are under 16 years of age.

### *Sensitive Personal Information*

Lilly does not use or disclose your sensitive PI except for limited purposes that are authorized by law. For example, Lilly may collect information about your health or medical diagnosis to provide you specific functionality or products or services that you have requested. California law does not afford you rights to limit the use or disclosure of sensitive PI for these purposes, although we may nonetheless ask for your consent or provide you choices about how we use this information depending on the relevant context.
